Introduction

Greetings, I am Blair Tyrant; former ONA and original Founder of GoreWaffen. In this book "Bloodied Valor" I will be expressing my views on the current state of the ONA and its current followers & praxis. Further discussing the lack of authentic Satanic presence and black deeds committed by the lovecraft-Wiccan followers of the ONA and its ultimate conversion to a pseudo-satanic order that has merely become nothing more than a social group full of keyboard warriors. Enjoy.....

THE BLOOD PATHEON

Though the Temple ov Blood has had some influential literary works it was ultimately weighed down by the edge lord; armchair Satanist pseudo-intellectualism in devotion towards entities other than Satan himself. Such as Kali, Krishna, and many other Demi-gods in which they claimed to be "Satan".

There is only one satan, and that is satan.

Any other worship from the Dark Father himself is utterly just ridiculous babble followed by the lesser cattle satanic orders or "occults"

"Ye are of your father, the devil..."

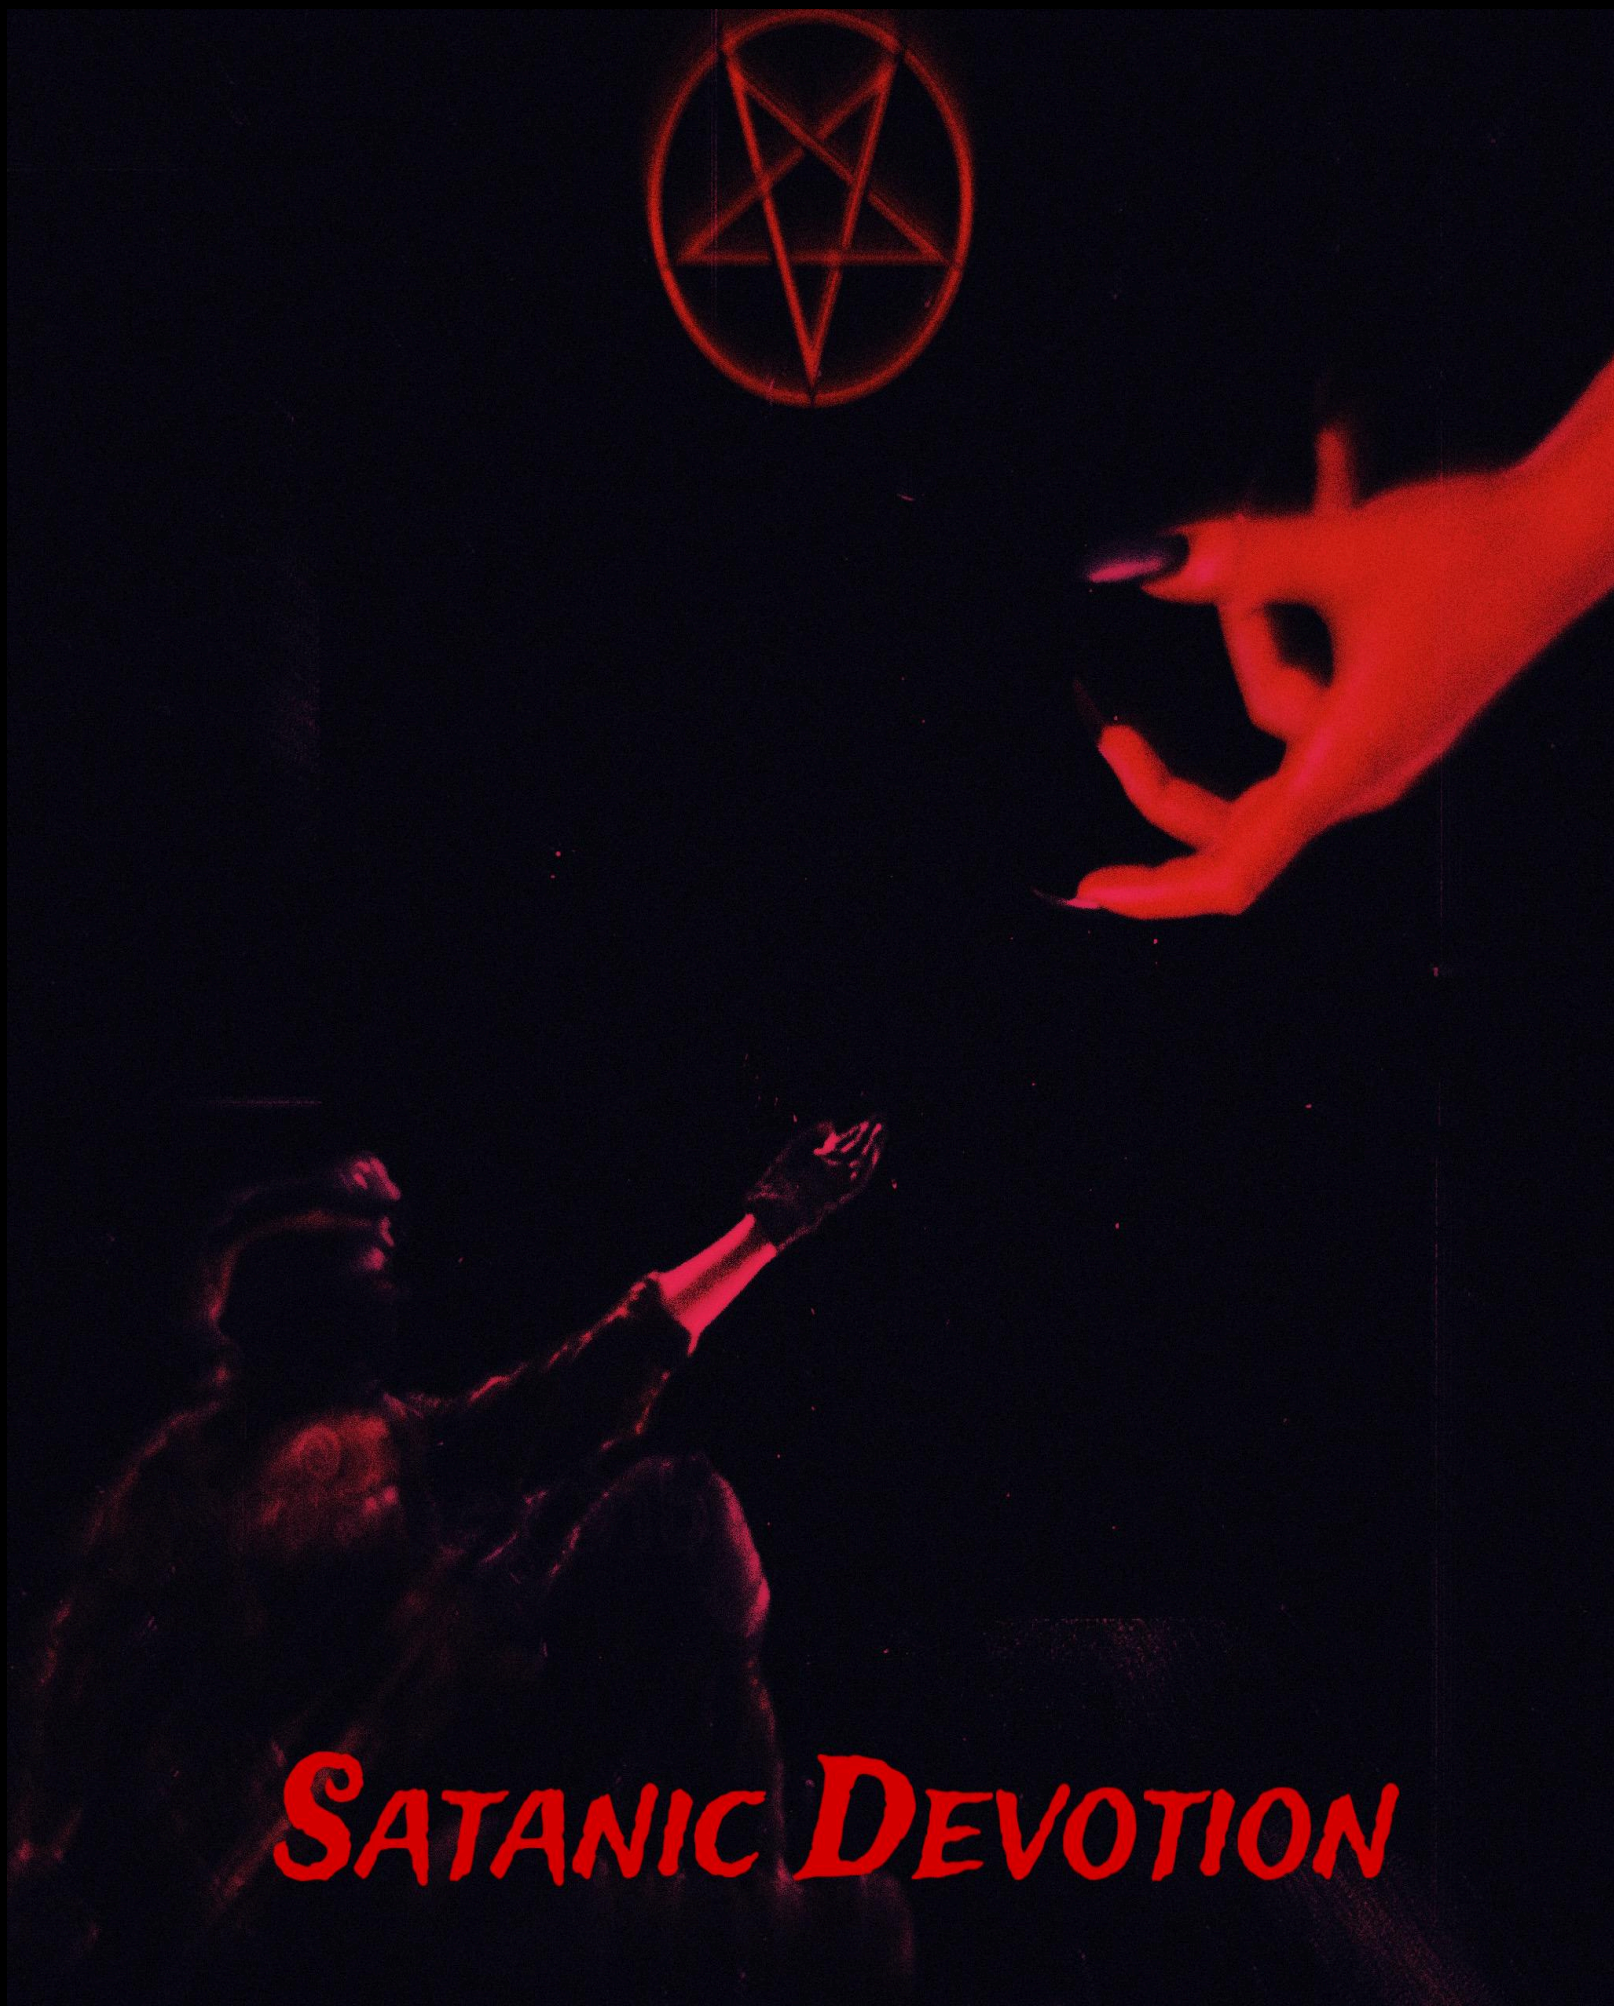
John 8:42 - 8:48

Furthermore, the moral mandate which has been imposed amongst the Temple has ultimately become diluted and poisonous to the satanic dialect. Satanism isn't about having restrictions, it's about breaking the restrictions that have been imposed by a soft and weak society; we are meant to be blasphemous and cruel beings; and most of all amoral.

The Temple ov Blood as well followed the ideals of both the ONA and AtomWaffen Division when it came to Anti-West ideologies. All while looking back at "glory days" at times like the Nazi Regime and Soviet Union; now while I agree that politics can be used to ultimately aid in one's dialect, it still has been wrongly and incorrectly interpreted within many of those inspired by the Temple ov Bloods work.

One Nation, Under Satan.

Nowadays the Temple ov Blood is made up of Egotistical basement dweller rejects and Children who have yet to who have seen the utter failures of their Order and Masters. Only time will tell when these individuals will wake up and see the lack of satanic nature that is absent in their beliefs, and truly seek to become the true sons and daughters of Satanas.

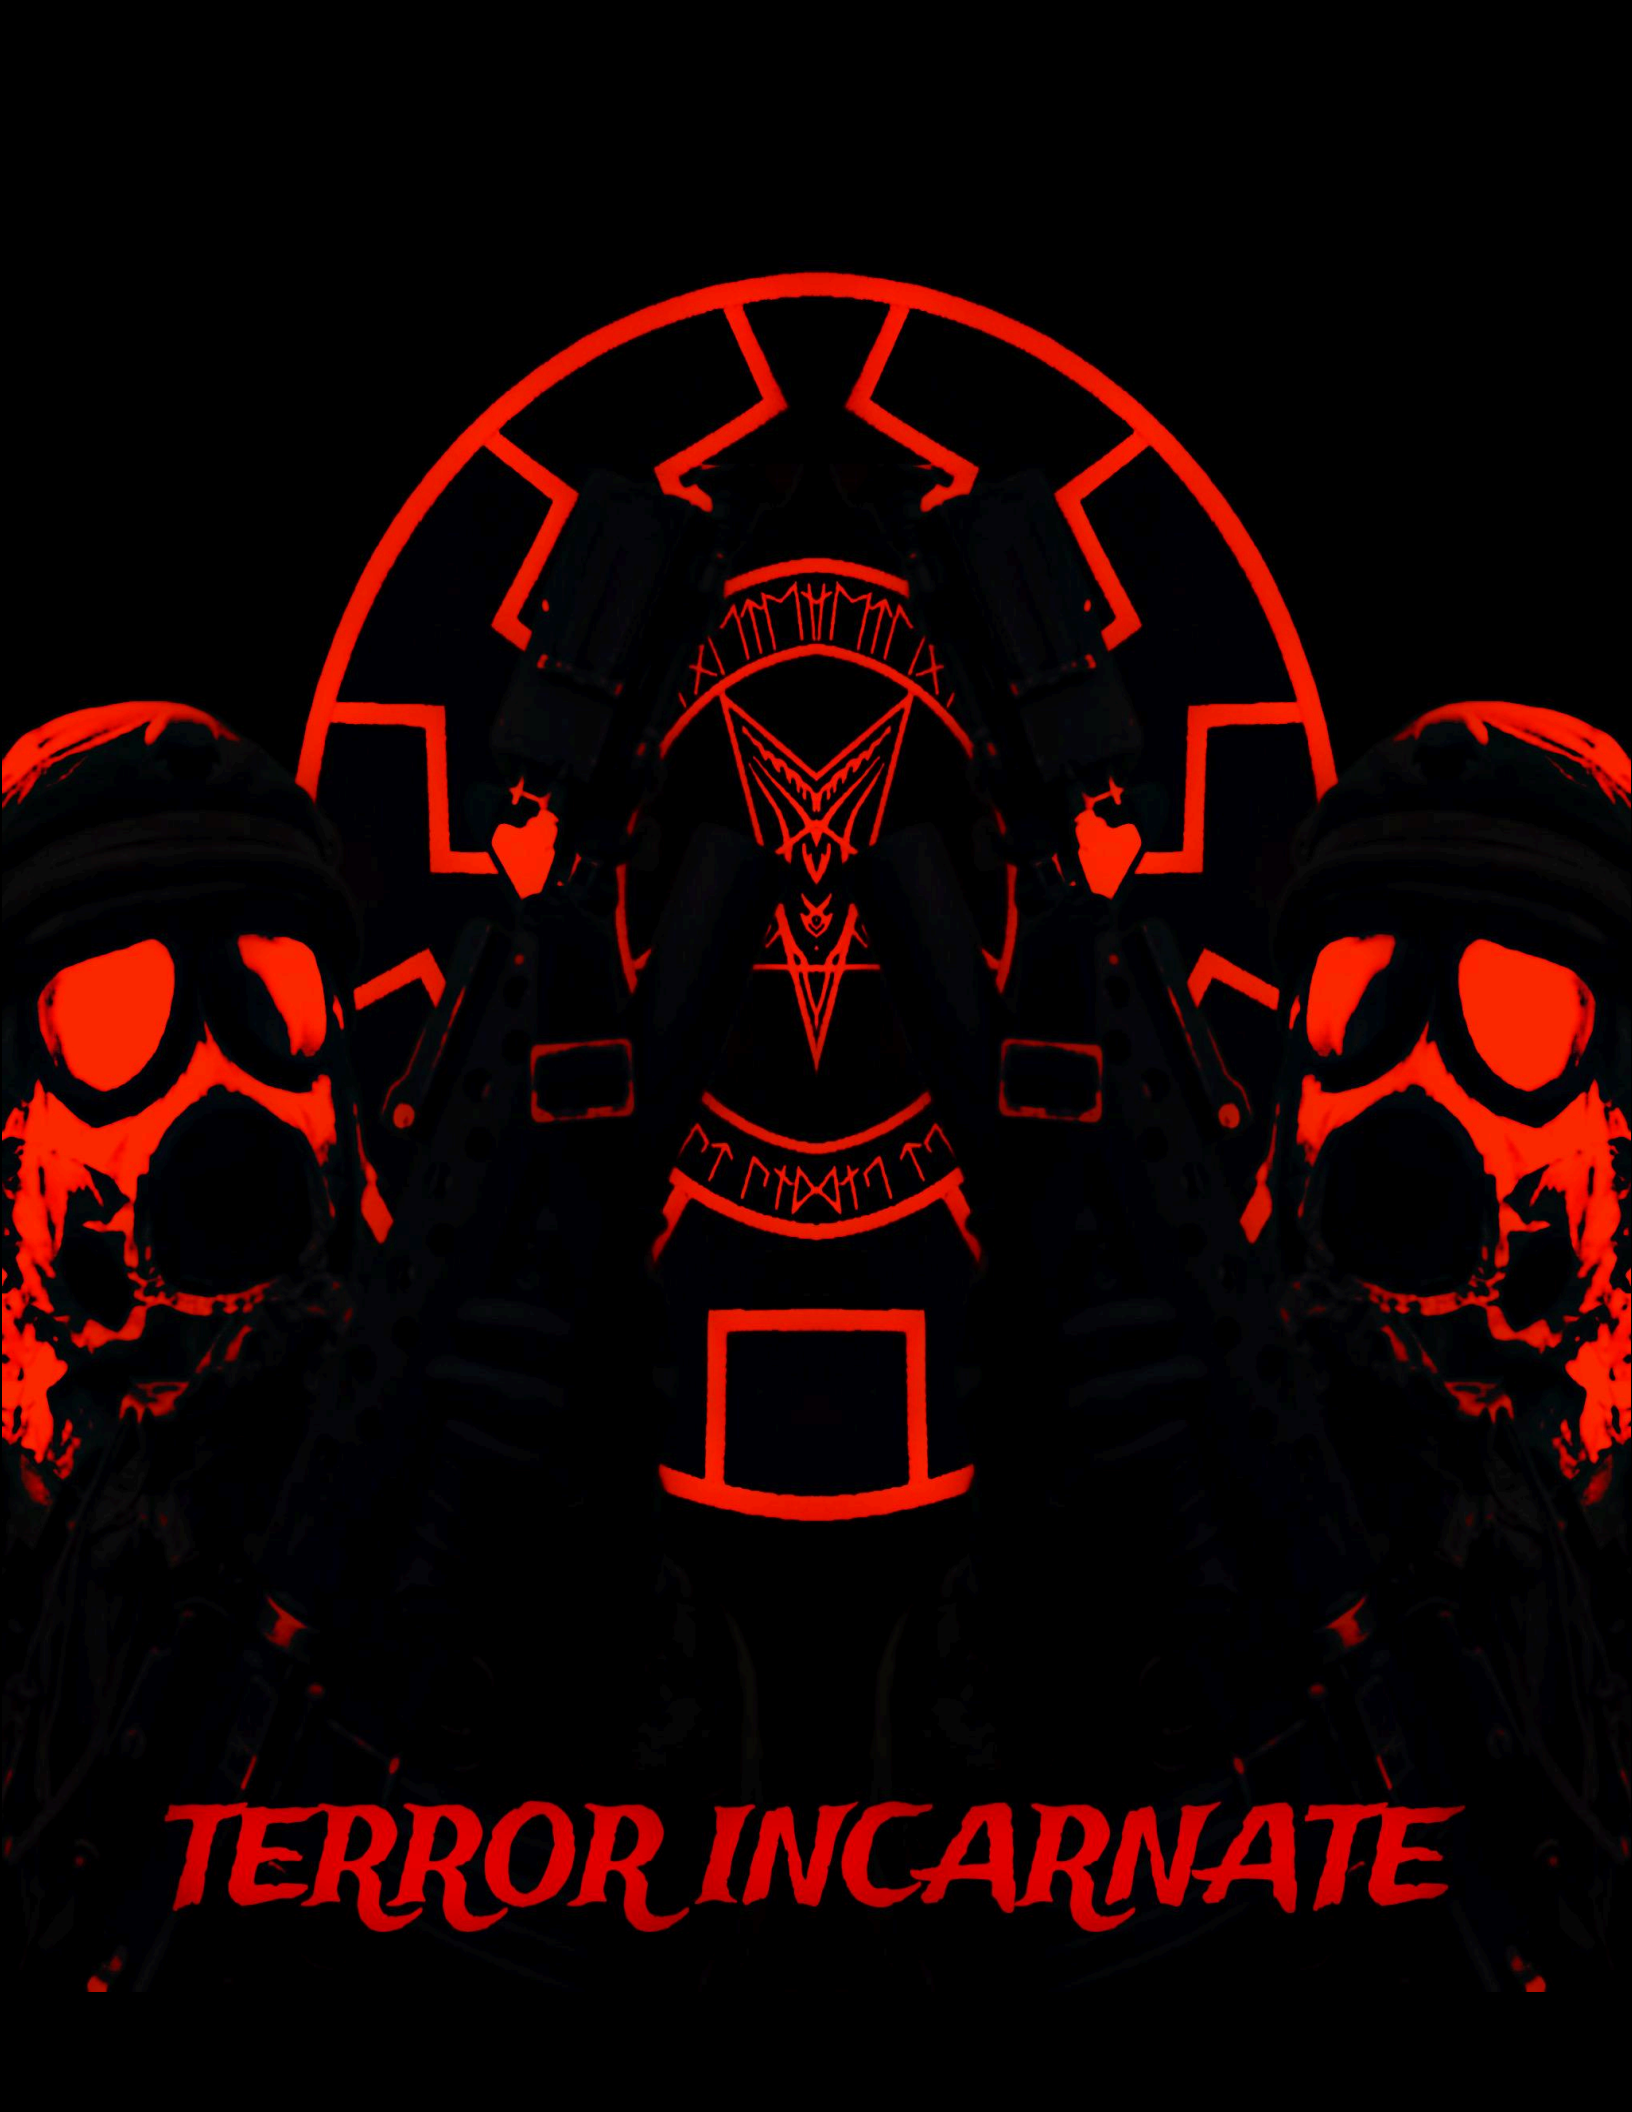


Satanic Devotion

Breaking the binds that hold you and showing a willingness to go beyond yourself both physically and spiritually; is what makes someone truly satanic and devoted, one must apply him/herself to pursue this path of eternal darkness. Devote yourself to the dark father and aim your life in a way that is directly inspired by him, this satanic trajectory is what forms the psychic bond between the Dark forces beyond the inferno.

Many of those who claim to be ONA are under the impression that simply writing literature on the “Sinister” is enough to be the works of the devil, which of course is just nonsense; anyone can sit down and write speculations and words; but at the end of the day, action and deeds done in the name of satan is what makes a devil in the flesh.

Most notably the spreading of their “Dark Tradition” through replicating works is also apparently enough for them to be “evil”, truly showing their true character and lack of drive to become a true follower of Satanas regime.



TERROR INCARNATE

Over the years Satanism has been hijacked by pseudo-intellectuals who claim Satanism to be nothing more than just self-worship and autistic god-complex ideas, merely claiming a more atheistic stance rather than worshipping the actual deity Satanas himself. Though I believe that LaVey has done a lot for Satanism and ultimately made the branch inspire many other satanic groups, the modern LaVey temple has been consequently destroyed by Liberal idiots who have no actual comprehension of authentic evil, merely they just dress up and automatically claim roles of Master/Mistresses and attend social jerkoff gatherings, doing nothing but stroking each others egos.

Ultimately the future is in our hands to restore evil and genuine grimoire amongst those who seek something authentic and truly horrific in nature; ultimately restoring the plague and scare that once used to be Satanic Panic among the masses, back when ritualistic murders were rampant and news channels were covering the fear-mongering phenomenon that brought death and chaos amongst its midst.

IRON GATES

In recent years the toll of the moral mandate inputed by former members of the Temple ov Blood have implemented a campaign to discredit and burn your Iron Gates, ultimately the reason to this ridiculous idea is due to Sutter being the author and his workings as informant, and as well the books contents.

This crybaby behavior speaks volumes in showing the moral wall of these supposed Satanist, more specifically the former member known as NSK has ultimately pleaded for such action against sutters works. Claiming an open season against all literature produced by sutter.

I say keep your Iron Gates and stand against the egotistical moral mandate imposed by such weak characters, rather you like or dislike sutter; his contribution ultimately awakened the many things you or I may have enjoyed about the Temple ov Blood.

NIHILISTIC HATRED

Hatred is a tool that can be used in many things in our lives, some use it as a coping mechanism while others use it help them thrive in something; ultimately the same use of this double-edged weapon is something we can harness for satanic purpose. Rather that it be to enhance your magick, or it be used to further connect yourself with satanas himself.

Ultimately we must thrive and harness this emotion, learn to both control and release it.

Hate is Power.

FEEL OUR HATE

PARANOIA

Paranoia is both a tool and weapon that can be used to control or terrorize, this mongering dread can facilitate the user or organization to control masses; paranoia has been seen throughout our history in wars and races, such as the Cold War era of suspicion and tension between America and the Soviet Union.

Ultimately leading to the Nuclear race & Space race, this tension brings for nations to prepare and utilize its assets; understanding works in creating paranoia is ultimately a weapon of mass destruction.

PREDATOR

Concluding this Issue of Bloodied Valor I would wish to dive into the Predator standpoint in satanism, truly we must uphold factionalism within Satanic organizations; due to the many pseudo-satanists who attach themselves like parasites towards our organizations and those that lack any satanic character at all. At the end of this, it's all about who will be the Apex Predator of Satanic organizations and will claim the utmost importance towards bringing evil to Satanism again!
